

Venue & Date

Lecture Hall of the
Bundeswehr Medical Academy
Neuherbergstr. 11
80937 Munich/Germany
October 22-25, 2013

Conference Chair

Col Prof. Dr. Lothar Zöller
Bundeswehr Institute of Microbiology
Neuherbergstr. 11
80937 Munich/Germany

Conference Secretary

Col Prof. Dr. Hermann Meyer
Biodefense@bundeswehr.org
Phone: +49-89-3168-3910

Scientific Advisory Board

S. Bankoul, Medical NBC (CBRN) Defense
of the Swiss Armed Forces (CH)
T. Brooks, Health Protection Agency (UK)
R. Burger, Robert Koch Institute (GE)
D. Garin, Institut de Recherche Biomédicale
des Armées (F)
A. Hensel, Federal Institute for Risk
Assessment (GE)
P. Keim, Northern Arizona University (US)
D. Krüger, Charité Institute of Virology (GE)
B. Niederwoehrmeier, Bundeswehr
Research Institute for Protective
Technologies and CBRN Protection (GE)
A. Rodloff, Leipzig University Institute of
Medical Microbiology (GE)
L. Smith, US Army Medical Research
Institute for Infectious Diseases (US)
J. Teifke, Friedrich-Loeffler-Institute (GE)

Conference Language

The official conference language will be English.

CME Points

The conference will be registered by the Chamber of Physicians of Bavaria.

Accommodation

A limited number of military standard rooms will be available on the premises of the Bundeswehr Medical Academy. The rooms will be distributed to participants from military and governmental organizations.

Limited numbers of rooms offered at special conference rates have also been reserved in various hotels and can be booked by registered participants stating their registration code. Further details are provided on the conference website.

Travel & Transfer

Travel and transfer information is provided online on the conference website.

Industrial Exhibition

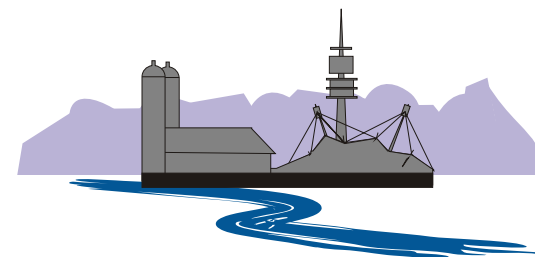

The conference will be accompanied by an industrial exhibition to be organized by the German Society of Military Medicine and Pharmacy.

Conference

Dear Colleagues,

We have the great pleasure to announce the upcoming Medical Biodefense Conference to be held in Munich, Germany, from 22 to 25 October 2013 and to cordially invite you to join this international event. For the fourteenth time now, this meeting will be organized under the auspices of the Bundeswehr Institute of Microbiology in the Bundeswehr Medical Academy in Munich. Additionally, as in 2009 and 2011, the German Society for Military Medicine and Pharmacy (GSMMP/DGWMP) will stage an accompanying industrial exhibition on 23 and 24 October 2013. This conference concept has proved to be very successful in 2009 and 2011, and it has earned us the appreciation of an audience composed of almost 500 participants from 35 countries. The presence of world-leading scientists strongly contributes to the excellent reputation of the conference. The Medical Biodefense Conference has certainly developed into an important international scientific symposium and is unique in its focus on medical aspects of biodefense.

The traditionally very reasonable attendance fee makes this conference very attractive also for participants from abroad. There will be ample opportunity for establishing contacts with civilian and military researchers from all over the world. It is a venue for people that are highly interested also in the latest products in the areas of diagnostics, therapy and prevention of diseases caused by highly dangerous infectious agents as well as in recent advances in the field of protection technologies.

Besides agent-related sessions, the Medical Biodefense Conference 2013 scientific program will also feature topics of particular interest such as "Molecular Typing and Bioforensics", "Mobile Bio-Reconnaissance", "Diagnostics", "Antibiotic and Antiviral Substances and Vaccines", "Emerging Infections" or "Outbreak Investigations". Internationally renowned experts will attend the conference to give insight into their latest research findings, and high-profile exhibitors are welcome to complement the prestigious event. Not to mention that Munich, the capital of the state of Bavaria, is an attractive place to meet! The Conference social event will let you taste the charm of Bavarian atmosphere.

There are definitely a number of good reasons not to miss the Medical Biodefense Conference 2013. We look forward to another outstanding scientific event in Munich and to seeing you there as a participant or exhibitor.

Sincerely,

Prof. Dr. L. Zöller, Colonel

Conference Chair

Scientific Program

Tuesday, 22th October

Registration
Pre-Conference Workshop

Wednesday, 23th October

Opening Ceremony
Plenary Sessions
Workshops
Satellite Symposia
Industrial Exhibition

Thursday, 24th October

Plenary Sessions
Workshops
Satellite Symposia
Poster Award
Industrial Exhibition

Friday, 25th October

Workshops
Farewell

Social Program

Tuesday, 22th October

Get-together Reception

Wednesday, 23th October

Bavarian Evening in one of Munich's famous
Brewhouses

Main Topics

Antibiotic Resistance Challenges
Bioforensic Approaches
Case Reports
CBRN Networks and Policies
Emerging Infections
High-Risk Agents
Identification and Detection
Medical Countermeasures: Antimicrobials and Vaccines
Metagenomics: Finding the Unknown
Mobile Bio-Reconnaissance
Molecular Typing and Epidemiology
Outbreak Investigations
Protection Technologies
Risk Assessment
Vector- and Food-Borne Diseases

Conference Website

Please refer to the conference website www.biodefense2013.org for more detailed information. [Registration](#) and [abstract submission](#) will be open from 1st March 2013. The deadline for registration will be 15th September, abstract submission will be closed on 15th July 2013.
